

Underage Drinking in Massachusetts

The Facts

Tragic health, social, and economic problems result from the use of alcohol by youth. Underage drinking is a causal factor in a host of serious problems, including homicide, suicide, traumatic injury, drowning, burns, violent and property crime, high risk sex, fetal alcohol syndrome, alcohol poisoning, and need for treatment for alcohol abuse and dependence.

Problems and Costs Associated with Underage Drinking in Massachusetts

Underage drinking cost the citizens of Massachusetts \$1.5 billion in 2007. These costs include medical care, work loss, and pain and suffering associated with the multiple problems resulting from the use of alcohol by youth.¹ This translates to a cost of \$2,440 per year for each youth in the State. Massachusetts ranks 21st highest among the 50 states for the cost per youth of underage drinking. Excluding pain and suffering from these costs, the direct costs of underage drinking incurred through medical care and loss of work cost Massachusetts \$445 million each year.

**Costs of Underage Drinking
Massachusetts 2007**

Costs of Underage Drinking by Problem, Massachusetts 2007

Problem	Total Costs (in millions)
Youth Violence	\$1,117.2
Youth Traffic Crashes	\$166.6
High-Risk Sex, Ages 14-20	\$82.7
Youth Property Crime	\$54.8
Youth Injury	\$36.6
Poisonings and Psychoses	\$13.6
FAS Among Mothers Age 15-20	\$19.2
Youth Alcohol Treatment	\$52.2
Total	\$1,542.9

Youth violence and traffic crashes attributable to alcohol use by underage youth in Massachusetts represent the largest costs for the State. However, a host of other problems contribute substantially to the overall cost. Among teen mothers, fetal alcohol syndrome (FAS) alone costs Massachusetts \$19.2 million.

Young people who begin drinking before age 15 are four times more likely to develop alcohol dependence

and are two and a half times more likely to become abusers of alcohol than those who begin drinking at age 21.² In 2007, 1,133 youth 12- 20 years old were admitted for alcohol treatment in Massachusetts, accounting for 5% of all treatment admissions for alcohol abuse in the State.³

Alcohol Consumption by Youth in Massachusetts

Underage drinking is widespread in Massachusetts. Approximately 314,000 underage youth in Massachusetts drink each year. In 2007, according to self-reports by Massachusetts students in grades 9-12:⁴

- 73% had at least one drink of alcohol on one or more days during their life.
- 20% had their first drink of alcohol, other than a few sips, before age 13.
- 46% had at least one drink of alcohol on one or more occasion in the past 30 days.
- 28% had five or more drinks of alcohol in a row (i.e. binge drinking) in the past 30 days.
- 5% had at least one drink of alcohol on school property on one or more of the past 30 days.

In 2007, underage drinkers consumed 15.4% of all alcohol sold in Massachusetts, totaling \$748 million in sales. These sales provided profits of \$367 million to the alcohol industry.¹

Harm Associated with Underage Drinking in Massachusetts

Underage drinking in Massachusetts leads to substantial harm due to traffic crashes, violent crime, property crime, unintentional injury, and risky sex.

- During 2007, an estimated 27 traffic fatalities and 1,600 nonfatal traffic injuries involved an underage drinking driver.
- In 2006, an estimated 23 homicides; 20,500 nonfatal violent crimes such as rape, robbery and assault; and 30,200 property crimes including burglary, larceny, and car theft involved an underage drinking perpetrator.
- In 2006, an estimated 4 alcohol involved fatal burns, drownings, and suicides involved underage drinking.
- In 2006, an estimated 2,000 teen pregnancies and 9,000 risky sexual acts by teens involved alcohol.
